SKILLS

> HTML, CSS & JavaScript

Developed a static website for a coaching class

The website contains all the basic functionality. Students can login any time and can access to coaching question banks DPP'S and lectures provided by the owner

Developed a personal portfolio

Created my personal portfolio website using HTML, CSS & JavaScript. Here is the GitHub link of my portfolio project.

GitHub:- <https://github.com/YUVRAJSINGH3112/portfolio>

Temperature Converter

I've developed an intuitive temperature conversion tool that seamlessly converts between Celsius, Fahrenheit, and Kelvin scales. I've implemented a user-friendly interface with a sleek design for easy and efficient usability.
